^aEither the UCFE or UCX amount (or both) must be entered.

NOTE: For Joint Claims, Column 11 represents the UI portion of the payment, and Columns 12 and 13 represent the Federal portion of the payment.

The term supplement includes supplemental payments, partial offset payments, and negative adjustments. Observations reported in all populations of first and continued payments (Column 3) will be sorted by time lapse days in ascending order and subtotaled by time lapse categories. Observations reported in all populations of supplemental payments will be sorted by SSN.

Population 4 Notes

1. The **First Payment** time lapse performance measure (as reported on the ETA 9050 report) uses a different definition of first payment than the definition of first payment used on the ETA 5159 report. The measure in the ETA 9050 uses the first compensable week rather than the first week compensated.

First payments are payments for the first compensable week in the benefit year after the waiting week where there were no excessive earnings. Because it is determined by the week paid, it is possible that the first payment date could fall after other payments have been made on the claim.

The ETA 5159 counts, which are not currently validated, use the first week compensated, i.e. the earliest payment date on the claim.

2. **Adjusted Payments (Subpopulations 4.33 – 4.42):** These are payments for weeks that have previously been compensated. The initial payment for the week is counted as a week compensated, and only additional payments for the same week are considered adjustments. These are reported on row 302 (section B) of the ETA 5159 only. Only dollar amounts are included. These payments are not counted as weeks compensated in row 301 (section B) of the ETA 5159 nor are they included on the ETA 9050 or ETA 9051 reports.
3. **Self-employment:** These payments are reported twice. They are reported as self-employment and also as part of the regular program; therefore, they must be extracted twice.
4. **CWC prior weeks compensated (Subpopulations 4.50 – 4.51):** The software allows the state to check the integrity of the files by using date ranges. For example, the ETA 5159 is a monthly report, and the dates must be within the month being validated. CWC prior weeks compensated payment dates will not fall during the same month being validated, but the software will accept and count these in subpopulations 4.50 and 4.51.
5. **Joint Payments:** In situations where a payment for a joint claim is made that does not use funds from more than one program, that payment is not considered joint and should be reported as UI, UCFE, or UCX.
6. **Timing:** The extract file must be built with a quarter's worth of CWC data (Subpopulations 4.44 to 4.51) to validate the quarterly CWC ETA 586 report. The other payments data (subpopulations 4.1 – 4.50), to validate counts and dollars on the monthly 5159, 9050, and 9051 reports, must be for the last month of the quarter. When loading the file, use the period Start and End dates for the quarter to allow the validation counts to match the ETA 586 report. The software will retrieve the monthly counts for the last month of the quarter. Records labeled "CWC Prior Weeks Compensated" (subpopulations 4.50 and 4.51) will have payment dates prior to the quarter, but the software will allow those to import.
